Irina Klavsuts graduated from Novosibirsk Electrical Engineering Institute (now Novosibirsk State Technical University – NSTU, Novosibirsk, Russia), Power Engineering Faculty, Department of Management and Economic Systems in Power Engineering.

In 1999 she received her PhD in Electrical Engineering from NSTU with the dissertation “Methods and models of demand side management in the power system”.

She is Associate Professor of Management Department of the NSTU. She is the author of three patents, 87 scientific papers including 4 monographs and 5 textbooks. Her research interests include Knowledge Engineering and Management, Power Systems Simulation and Analysis, Business Process Reengineering, Perfecting Business Processes In Electricity Grids By The Use Of Innovative Technologies of Demand Side Management In The Framework of The General Conception of Smart Grids.

Irina Klavsuts is a reviewer for various international conferences and journals.
